### SUMMARY

Full Stack Developer with 6+ years of experience building scalable and responsive enterprise web applications using Angular and Java. Expertise in Angular, TypeScript, HTML5, CSS3, Spring Boot, REST APIs, and Microservices, with hands-on experience in Azure App Services and CI/CD pipelines. Experienced in Agile teams delivering secure, high-performance applications with a strong focus on scalability, reliability, and user experience.

### EDUCATION

2016 - 2020

**B.Tech in Computer Science Engineering**

VELTECH RANGARAJAN DR  
SAGUNTHALA R&D INSTITUTE OF  
SCIENCE AND TECHNOLOGY

### SKILLS

Frameworks & Libraries:

- Angular, Bootstrap, Spring Boot, RxJS, Microservices

Languages:

- TypeScript, Java, HTML, CSS, JavaScript

Database:

- MySQL, Oracle, PostgreSQL

Cloud & DevOps:

- Microsoft Azure (App Services)
- CI/CD Pipelines

Tools:

- VS Code, Eclipse, IntelliJ IDEA
- Git, Bitbucket, Postman

Practices:

- Agile/Scrum, Code Reviews
- REST API Integration

AI & Developer Tools:

- GitHub Copilot, Claude AI

### WORK EXPERIENCE

**WIPRO | HYDERABAD, INDIA**

March 2026 - Present

**Senior Software Engineer | Angular, TypeScript, Java, Spring Boot**

- Upskilled in cloud technologies and full-stack development to enhance end-to-end application delivery capabilities.
- Improved understanding of scalable application architecture, authentication, and deployment workflows.

**TATA CONSULTANCY SERVICES | HYDERABAD, INDIA**

Jul 2023 - Jul 2025

**Senior Systems Engineer | Angular, TypeScript, HTML5, CSS3**

- Architected and delivered an Angular-based enterprise server patching platform used to identify and remediate vulnerable servers, improving infrastructure security and compliance.
- Integrated secure RESTful APIs with authentication and error handling, reducing failures and ensuring reliable data exchange.
- Built reusable Angular UI components aligned with modern UX standards, improving development speed and UI consistency.
- Automated UI workflows, cutting manual effort by 70% and significantly improving operational efficiency.

**CAPGEMINI | HYDERABAD, INDIA**

Oct 2020 - Jun 2023

**Software Engineer | Angular, TypeScript, Java, Spring Boot, Microservices**

- Developed a responsive insurance policy management platform with cross-browser and mobile support, improving accessibility and usability.
- Created reusable Angular components and optimized backend APIs, enhancing performance, maintainability, and response times.
- Implemented end-to-end modules for client evaluation and resource management, ensuring accurate data flow and reliable reporting.
- Integrated RESTful frontend-backend communication, improving system reliability, scalability, and data consistency.

### PROJECTS

**The Airawat Kitchen Website | Personal Project**

- Developed a responsive restaurant website for The Airawat Kitchen using Angular, HTML5, CSS3, and Bootstrap.

**Server Patching Portal | Banking Domain | TCS**

- Deployed and maintained application builds using Azure DevOps pipelines, ensuring secure and automated delivery workflows.

**Policy Endorsement | Insurance Domain | Capgemini**

- Built and maintained a responsive policy management platform allowing users to browse policies and generate real-time quotations.

### CERTIFICATIONS

- Applied Artificial Intelligence Systems
- Awareness Course on TQM & ISO 9001
- Business English Communication (BEC - Cambridge)
